

## What is happening in P.E. at Park Hill Infants...

The 'Growth Mind-set' approach to learning has been implemented into the PE program and children have been learning and improving skills in a range of sports which they may not have had the opportunity to try before. Some of these sports include; taekwondo, gymnastics, archery, horse care and modern jazz. We have also been able to work with students from Archbishop Tenison's who have been leading PE workshops and promoting links within the Croydon community. In the summer term we will be continuing to broaden the children's sports knowledge with workshops aimed towards athletics, football, cross country and golf. It has been incredible to see the children learn about new sports and try new things!
