

# Key Instant Recall Facts (KIRFs)

## Reception Summer 1 – Shapes

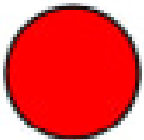

This half terms recall homework focuses on shapes. This is a key mathematical skill which is used in many areas of maths and other subjects.

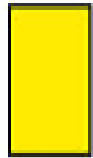

There are many ways to practise and some great games online. Head to google and search for EYFS shape games.

### Top Tips

- Look for shapes in the house
- Use questions like how many sides does this have?
- Focus on finding shapes in an environment not just learning the names. The children need to understand the name represents a shape and that they have different properties.

circle

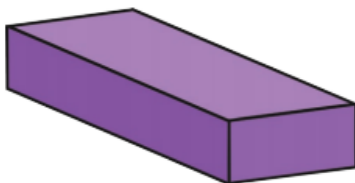

rectangle

triangle

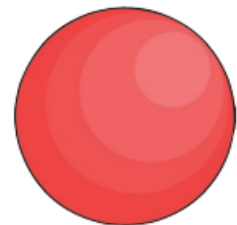

square

cuboid

cube

sphere
